

CHARME

TONNELLERIE
Vernou

Wine Collection

SPECIFICATIONS

Blend of fine and semi-fine grain wood.
Natural long seasoning in our wood yard.

WOOD SELECTION

The wood has been chosen for its structure, to have less tannins than the Vernou Standard and boost freshness.

RESULT

This perfect balance between wood and toasting is recommended for delicate varietals and fruity wines. A delicate wood profile to respect the fruit, give volume, sweetness and keep a nice freshness through the finish.

TOAST

Special toast: A uniform and slow toasting to transform the wood deep inside. A low fire brazier preserves the oak characteristics and allows the stave to release a complex range of aromas bringing freshness and tension.
